Welcome to the Academic Lyceum

Student: Semenova Kate,
Form: 9 a
Teacher: Razenkova T. P.

Tomsk - 2020

History

The Academic Lyceum named after G.A. Psakhye was created by order of the Head of the Administration of Tomsk July 15, 1993.

- But even before this, in 1991, the Academic Lyceum was "Testing the model of organizing educational activities in grades 8-11 with an expanded content of education and changes in teaching technologies.",
- 1992 – 1993, the lyceum for gifted students
- And in 2001 the program changed to "developing the abilities of students in the mass school environment".

Objectives of the school

o Development and implementation of new educational technologies and different models of teaching pupils

o The realization of their unique potential, abilities and talents

o Creation of good conditions for the successful socialization

o Improvement and development of intellectual resources of Tomsk and the Siberian region for the socio-cultural, scientific and technical development of Russia

Schooling

- Teaching subjects with a high level of programs, set on the basis of deepening and enrichment,
- Introduction of individual and group educational programs, research projects, mini-grants, creative and project work, subject olympiads for schoolchildren
- A system of special course programs that can be adjusted according to individual learning abilities

Extra-curricular activities

- In our lyceum you can find almost any classes that you want and based on your interests.
- There are many extra-curricular activities such as humanitarian classes about literature, history and languages; math, physics and technical groups; arts and music; and of course sports: table tennis, volleyball, basketball, skiing etc.

The Atmosphere

Most pupils and teachers try to support a cheerful, calm, friendly atmosphere in the lyceum. Based on several concepts:

- tolerance
- mutual aid
- personal responsibility
- support
- scientific thinking
- high level of professionalism
- open civil and professional position
